

# MICHAEL CINGARI

Newport Beach, CA | 949-842-4974 | [mjcingari0@gmail.com](mailto:mjcingari0@gmail.com) | [linkedin.com/in/michael-cingari](https://www.linkedin.com/in/michael-cingari)

## MISSION

Learning & development professional with a dual technical and education background (B.S. Computer Science & Engineering, M.A. Education). Builds and delivers learner-centered resources, training and instruction, combining hands-on program leadership with instructional design methodology and a collaborative, lead-from-front approach.

## CORE COMPETENCIES

### Instructional & Curriculum Design

Standards Alignment & Learning Objective Design | Instructional Materials Development | Andragogy / Pedagogy | SME Collaboration | ADDIE | Bloom's Taxonomy | Scrum

### Data & Performance Analysis

Data Analysis | Survey Design & Analysis | Performance Reporting | Compliance Auditing | Needs Assessment

### Leadership & Team Development

VILT/ILT | Change Management | Process Mapping | Hiring, Onboarding & Performance Evaluation | Cross-Functional Leadership & Conflict Resolution | Quality Assurance

## EDUCATION

### Master of Arts, Education

University of Phoenix

2021-2023

### Bachelor of Science, Computer Science

California State University, Fullerton

2017-2020

### Program & Project Management

Project Initiation | Stakeholder Management | Agile & Scrum | Risk Management & Budget/Procurement | Timeline & Scope Management

### Teaching & Instructional Delivery

Differentiated Instruction | Universal Design for Learning (UDL) | Special Education | Assessment Development | Stakeholder Communication | Adult Learning

### Technical & Software Development

AI-Assisted Workflows & Tool Integration | Python, C++, Java | Algorithmic & Logical Problem-Solving | Application Development Lifecycle | Sprint Planning & Agile Development | Software/Systems Literacy

## EXPERIENCE

### Supervisor, Expanded Learning

2024 - Current

*Magnolia Elementary School District | Anaheim CA*

- Supervise and evaluate performance of Expanded Learning support staff across multiple elementary school sites
- Lead hiring, onboarding, and training for site staff to ensure consistent program delivery
- Revise and develop instructional and curricular programs in collaboration with site and District administrators, aligned with grant funding requirements
- Deliver ILT/VILT sessions to onboard and train Expanded Learning staff, reinforcing program standards and instructional consistency across sites
- Audit staff work products for compliance with District standards and program specifications
- Track and report student attendance, performance, and behavior data to program leadership
- Serve as primary point of contact between administration, staff, parents, and students, ensuring timely communication and issue resolution
- Maintain safety, health, and operational protocols across school sites
- Coordinate equipment, supplies, and logistics to support uninterrupted program operations across multiple sites

### Training Manager

2021 - 2024

*Elevo Learning | Orange County CA*

- Led project initiation for new district program launches, scoping curriculum needs and aligning stakeholders prior to rollout
- Developed & implemented sports, SEL, and STEAM curriculum, programming for TK-12th grade, aligned with California state standards
- Served as project lead for district-specific rollouts, tailoring curriculum to meet individual district needs and requirements
- Managed project timelines across multiple concurrent district launches, from initial planning through full site implementation
- Applied change management practices to drive adoption of curriculum and program adjustments among staff and district stakeholders
- Oversaw hiring, onboarding, and performance evaluations for program staff across multiple sites
- Supervised distributed teams of 50-150 staff, scaling based on seasonal and programmatic demand
- Collected and tracked program data to monitor implementation progress against project goals
- Coordinated overlapping timelines across multiple districts throughout Orange County and Southern California
- Served as primary liaison between the organization and district administrators across the full project lifecycle, from initiation through post-launch evaluation

### Sales & Application Engineer

2019 - 2021

*MicroElec Technical | San Jose CA (Remote)*

- Managed a portfolio of client accounts across Medical, Aerospace/Military, and Automotive industries, from prospecting and discovery through account management
- Owned projects end-to-end as primary point of contact for distributors, engineers, and supply chain managers, coordinating internal teams through implementation and launch
- Developed project schematics, technical customizations, and documentation to meet client-specific product requirements
- Balanced client-facing sales responsibilities with hands-on technical/project development work, including software development in support of client implementation
